ENGLISH: LEVEL UPPER INTERMEDIATE

<GOAL>

I want to be able to work remotely in the framework that I am most passionate about (laravel), in a company anywhere in the world, and test the skills I have acquired in the last time.
Although I feel more comfortable working as a backend developer, I also like to be able to provide solutions as a frontend developer.

<WORK EXPERIENCE>

2019-Now METROTEL

IT Development Analyst
Maintaining a system called Dispo, which manages the company's sales opportunities, products and records.

2013 - 2019 MINISTRY OF SECURITY

Semi Senior Web Developer
Developing some projects, mainly in laravel. Frontend development with css3 and html5, applying libraries like JQuery, Vue.js or bootstrap.

Since 2009 FREELANCE

Programmer of systems, pages and APIs in PHP, some projects individually and others with friends, for different purposes.
